

DESCRIPTION

ScanWater pillow tanks for potable water are made from UV-stabilised PVC coated polyester fabric. The PVC coating is nontoxic and approved by official bodies for use in storage of drinking water.

- 100% polyester high-tenacity fabric
- Origin : Europe
- Double-sided PVC coating with anti-UV treatment in the mass
- Minimum tensile strength : 400 DaN/5cm
- Minimum tear resistance : 450DaN
- Weight : from 930 to 1400 g/m²
- 100% recyclable fabric

Manufacturing certified ISO 9001:2008 and ISO 14001:2004. Compliant with the REACH directive no. 1907/2006 on the non-toxicity of the constituent materials and the absence of phthalates. IANESCO certification for non-migration of materials in stored liquids.

Capacity (litres): 5 000/10 000/20 000
Top Opening: 4" threaded flange w/PVC lid
Filling/discharge: 2" PVC ball valves w/aluminium Guillemin male adaptor

Options: Camlock or Storz can replace default Guillemin couplings

Ventilation: Air release valve
Material: Recyclable PVC; Nontoxic; UV-protected; Corner Plates

Size full (m): 2*6*0.42/3*7*0.48/4*9*0.56
Weight (kg): 28/52/80

Manuals: Instruction manual for installation,

repair and maintenance

Maintenance: Repair kit

Packaging: Folded in wooden crate

Storage: Store in dry area

SHIPPING DATA

Crate size(m): 1.2*0.8*0.2

Volume(m³): 0.192

Weight (kg): 55/65/95
