

DESCRIPTION

The U-Can is utilised for the transportation or storage of water, by households, small or large institutions, emergency services, security forces, campers, boat owners, anglers, and 4x4 enthusiasts. The U-CAN enables the user to utilise space optimally due to the Cans flexibility and ability to adapt it's form to irregularly shaped storage compartments, both when full or packaged.

Construction: Extruded laminated polyamide / polyethylene, UV stabilised with nontoxic coating with 33 mm screw cap

Normal capacity: 10 litres.

Utilisation: Transportation and storage of water.

Shelf life: 10 years when kept in original packaging and stored in a dry area in temperature within - 10 and + 50°C.

Marking: Printing of logo and other text/images can be specified by customer.
